SUMMARY

Motivated and detail-oriented B.Tech Computer Science Engineering (Artificial Intelligence & Machine Learning) student with a strong foundation in Java, Python, C++, HTML, CSS, JavaScript, SQL, and MongoDB. Passionate about software development, web technologies, and problem-solving, with hands-on experience in building academic and personal projects. Quick learner with excellent analytical and teamwork skills, eager to contribute to innovative projects while continuously enhancing technical expertise. Seeking an internship or entry-level software development role to apply my knowledge and grow as a software engineer.

EDUCATION

Secondary school (M.P. Board) — **2021 - 2022**

- Government higher secondary school baroundha
- Percentage - 81.6%

Senior secondary school (M.P. board) — **2023 - 2024**

- Government higher secondary school baroundha
- Percentage - 70.6%

Bachelor of Technology (B.Tech) — **2024 - 2028**

Computer Science & Engineering (Artificial Intelligence & Machine Learning)

- Roorkee Institute of Technology, Roorkee

SKILLS

Technical Skills

- Java
- Python
- C Programming
- C++
- HTML
- CSS
- JavaScript
- SQL
- MongoDB
- Git & GitHub

AI & ML

- Machine Learning Fundamentals
- Pandas
- NumPy
- Scikit-learn

Core Computer Science

- Data Structures & Algorithms (DSA)
- Object-Oriented Programming (OOP)
- Database Management System (DBMS)
- Operating System (OS)
- Computer Networks (Basic)

Web Development

- Responsive Web Design
- DOM Manipulation
- REST API Basics

Database

- MySQL
- MongoDB

Tools & Technologies

- Visual Studio Code
- Eclipse / IntelliJ IDEA
- Jupyter Notebook
- MySQL
- Windows & Linux (Basic)

Soft Skills

- Problem Solving
- Analytical Thinking
- Teamwork
- Communication
- Quick Learning
- Time Management
- Adaptability

PROJECT

Data Analysis on Tesla Car Dataset Using Python

Performed data cleaning, manipulation, and visualization using Pandas, NumPy, and Matplotlib. Derived insights on car features, battery performance, and user preferences.

Mini Calculator (Java GUI Application)

Developed a calculator using Java Swing for basic arithmetic operations. Included GUI design, exception handling, and input validation.

Login Page

Created a login system using Java AWT/Swing. Implemented secure user authentication logic and error alerts

Code Exam Pro – Online Examination System

Developed a responsive web-based online examination system using HTML, CSS, and JavaScript, featuring secure student authentication, timer-based examinations, automatic answer evaluation, instant score calculation, result generation, question management, responsive user interface, and Local Storage integration for managing user and exam data efficiently.

Real-Time Emotion Detection System

Developed a real-time emotion detection system using Python, TensorFlow/Keras, and OpenCV that detects human faces through a webcam using the Haar Cascade Classifier and classifies seven facial emotions (Angry, Disgust, Fear, Happy, Neutral, Sad, and Surprise) using a trained deep learning model, displaying live emotion predictions with bounding boxes and labels for real-time facial expression analysis.

Algorithm Visualizer

Developed an interactive Algorithm Visualizer using HTML, CSS, and JavaScript to demonstrate the working of sorting algorithms through real-time animations and step-by-step execution, implementing Bubble Sort, Selection Sort, Insertion Sort, Merge Sort, and Quick Sort with dynamic array generation, adjustable visualization speed, responsive user interface, and intuitive controls to enhance algorithm learning and problem-solving skills.

CERTIFICATIONS

- **Nestlé E-Learning Program on Sustainability – Nestlé**
- **C Programming – IIT Bombay (92.5%, 2 Credits)**
- **Fundamental AI Concepts – Microsoft Learn**
- **MongoDB Certified Developer, Associate (C100DEV)**
- **ESG Job Simulation – Tata Group via Forage**
- **Management Quiz Participation – Unstop (17 Feb 2025)**
- **Blind Coding Certificate – RIT Roorkee (C Language)**
- **Buildathon (AI Innovation Program) – Adya AI Launch Lab**
- **Advanced C++ Programming – IIT Bombay (100%, 1 Credit**
- **Java Training – IIT Bombay Spoken Tutorial (EduPyramids), Score: 90.00% | 4 Credits (June 2026)**
- **GeeksforGeeks Course Completion Certificate – GeeksforGeeks**

PERSONAL DETAILS

D.O.B - 10/06/2006
Gender – Male
Married Status - Unmarried
Language - Hindi , English
